

1. **Identify the main topic or question.** The chart is titled "Percentage of people who use different methods to get information about the environment." This indicates the chart is about environmental information sources.

2. **Identify the categories being measured.** The categories are the different methods used to get information, listed on the horizontal axis:

- Television
- Radio
- Newspapers
- Internet
- Mobile phones
- Direct mail
- Public information campaigns
- Community meetings
- Workshops
- Other

3. **Identify the data series.** The data series is represented by the vertical bars, where the height of each bar corresponds to the percentage of people using that specific method.

4. **Interpret the data.** Based on the visual representation, the approximate percentages for each method are:

- Television: 35%
- Radio: 25%
- Newspapers: 20%
- Internet: 15%
- Mobile phones: 10%
- Direct mail: 5%
- Public information campaigns: 3%
- Community meetings: 2%
- Workshops: 1%
- Other: 1%

ok review 一下剛剛 Codex 完成的 Step 1 部分，有沒有什麼問題？

/Users/brook/.cursor/plans/inbox_sandbox_implementation_d794250e.
plan.md 我剛剛請 codex 規劃了 demo 後的修改項目，請你依照規劃的內容仔細檢查一遍看有什麼缺少

ok 檢查一下你這輪的修改與討論有什麼更新結論，然後回頭檢查 plan 有哪些需要同步的

How does my manager vibe me

- Prototype Drive
- PM 減少功能規劃，更著重於市場端
- 更高的交付頻率，並且提早開始交付
- PM/Designer 時不時會來寫點小修改
- No QA and Design

AI Native

AI Native (AI原生) 是指從設計之初就將人工智慧視為核心能力與基石，而非事後添加的功能。

Building an AI-Native Engineering Team from Open AI

歡迎任選問題分享

1. 你喜歡用 Claude、GPT、Gemini 或其他？
2. 你用 AI 做什麼事？寫文件、寫扣、整理資料...
3. 你有沒有因為太相信 AI 的輸出，而在工作上出包？
4. 你把 AI 當工具、同事、還是 Google 在用？
5. 是否有某些事情你刻意不讓 AI 做？為什麼？
6. 你怎麼決定何時要 review AI 寫的東西？
7. AI 改變你對什麼技能的看法，覺得「不用學了」或「更重要了」？
